

Instructions for Preparing the Abstract

Sanja Singer and Saša Singer

Abstract. This file serves as an illustration of how to prepare a \LaTeX file for an Abstractbook. For preparing abstract, you need only the style file `applm05a.sty`.

Style `applm05a.sty` is prepared in somewhat oldfashioned way. You may \LaTeX your document using either $\LaTeX 2\epsilon$ (in compatibility mode) or old $\LaTeX 2.09$.

Your abstract should not be longer then one page (author addresses excluded).

Please, follow the restrictions mentioned here:

- (1) You are not allowed to input any other style option.
- (2) Math formulas can be entered as usual. Please, don't use numbered equations, theorem-like environments, etc. There are additional math-things predefined in style. For set of natural and real numbers, mathops, etc., please use

$\backslash\mathbb{N}$	N	$\backslash\text{const}$	const	$\backslash\text{supp}$	supp	$\backslash\text{tr}$	tr	$\backslash\text{ltgt}$	\leq
$\backslash\mathbb{Z}$	Z	$\backslash\text{diag}$	diag	$\backslash\text{divg}$	div	$\backslash\text{sign}$	sign	$\backslash\text{bfdiv}$	div
$\backslash\mathbb{Q}$	Q	$\backslash\text{grad}$	grad	$\backslash\text{rot}$	rot	$\backslash\text{Real}$	Re	$\backslash\text{bfmod}$	mod
$\backslash\mathbb{R}$	R	$\backslash\text{Range}$	Range	$\backslash\text{card}$	card	$\backslash\text{Imag}$	Im		
$\backslash\mathbb{C}$	C	$\backslash\text{rank}$	rank	$\backslash\text{fl}$	fl	$\backslash\text{gtlt}$	\geq		

- (3) Style file has predefined Croatian characters đ(type $\backslash\text{dj}$ to obtain it) and Đ(type $\backslash\text{Dj}$). Usage: for example, $\backslash\text{Dj ur}\backslash\text{dj ica}$ gives Đurđica.
- (4) Please do not use bibliography in this document. But if you absolutely need it, follow the instructions here. The bibliography style uses numeric labels. The title should be in italics, lower case for article titles, mixed upper-lower case for book titles as shown below. The style uses alphabetic order. Abbreviations of journals should be from Mathematical Reviews. Author names are typesetted in smallcaps style and should start with initials. The bibliography below shows how to cite an article, an article in proceedings (or collection), a book, and a Ph.D. thesis. If you use $\text{BIB}\TeX$ you should use the bibliography style `siam`. Include your `bbl` files after the closed $\backslash\text{endabstract}$ command as done here.
- (5) Please fill $\backslash\text{authoraddress}$ field at the end of the document for each author of the abstract (see bottom of the document). The first parameter is author's name (full), and the second is full author's address. If you have an e-mail address, and homepage, please fill fields $\backslash\text{email}$ and $\backslash\text{homepage}$ respectively. If you haven't got email, please leave this fields empty, and fill $\backslash\text{fax}$ field (telefax number).
